The party could not get beyond the Elbow owing to deep snow, which in places they found as deep as eight feet. Twenty miles farther on there is a cattle ranch, and it is at this place the men are supposed to be, if alive. A party of half-breeds started from Moose Jaw last week to try and reach this ranch from that end.

The weather here has been very cold for the past week. The thermometer reading 43° below on Tuesday.

FRIDAY, FEB. 28, 1890.

Next month the great Forth  
bridge is to be formally opened by  
the Prince of Wales. This ceremony  
takes place on the 4th proximo.  
The other day the chief engineer,  
Sir John Fowler, tested the two  
1,700 feet main spans of the bridge  
by placing on the centres two trains  
each made up of fifty loaded coal  
waggon and three of the heaviest  
engines and tenders, the total load  
thus massed upon the spans being  
the enormous weight of 1,800 tons  
which more than doubles what the  
bridge will ever be called upon in  
practice to sustain. The result was  
satisfactory and every part of the  
bridge will be in perfect order when  
the first train carries the royal party  
across next month.

That part of St. John, N.B.,  
which before its recent annexation  
was known as Portland is to vote  
on Thursday on the repeal of the  
Scott Act. Prohibition was carried  
in Portland three years ago, although  
it was defeated in St. John, and  
since the union of the two cities the  
spectacle of liquor selling being il-  
legal in several wards, has been  
presented. The law in Portland has  
not been respected, and it is thought  
will be repealed. Should repeal be  
carried, it will be the first victory  
for repeal that New Brunswick has  
known.

The Empire says, L'Etendard  
seems to have degenerated into a  
thorough-going free trade organ.  
Because some of the people of Que-  
bec leave the province that they  
may go to work in the New Eng-  
land factories it would adopt the  
strange remedy of closing the Cana-  
dian factories, thus compelling all  
who wish for such employment to  
find it abroad. The obvious reme-  
dy would be to supply all Canadian  
requirements as far as possible by  
the work of Canadian operatives in  
Canadian factories instead of giving  
our custom to foreigners, and turn-  
ing out our own people to seek em-  
ployment elsewhere which we refuse  
them at home.

That the manufacturers of New  
England using iron and steel are  
petitioning Congress for free iron,

coal and coke is instanced by one  
of their Canadian organs as telling  
against protection. The truth is  
that the protective policy of the  
United States has so built up their  
industries far and wide that the  
Yankees no longer manufacture, as  
was once the case, for the whole  
country and find that their output  
cannot easily be absorbed. They  
think they would have a better  
chance with their new competitors  
if they could escape the duties  
on their raw materials, which, by-  
the bye, are not protective, but war  
taxes, surviving after the need. But  
what the Yankee manufacturers  
really desire most is access to our  
markets, that with their surplus out-  
put they may crush and supplant  
our Canadian market.

ACCIDENT.

On Monday Henry Bisson met with a  
very painful accident, and one which  
will confine him to the house for some  
time. He was chopping fire wood across  
the river, and just quit for dinner when  
his partner asked him to help fall a tree  
that had lodged. The snow was very  
deep and Henry was not quick enough  
in getting out of the way of the falling  
tree when a splintered piece ran through  
his foot making an ugly and ragged  
wound and breaking a couple of toes.  
He was brought in to Alex. Stewart's,  
where Dr. Porter dressed the wound and  
where he is getting the best of care.

DUCK LAKE.

Assessor D'ngal, of the R. C. school  
is making his rounds.

The tie contractors are discharging  
some of their men. The main work to  
be done now is the hauling to the right  
of way.

Mr. W. V. Macleise, of your town, is in  
the district.

Our mill will close down for the season  
on the 15th of March.

Indian Agent McKenzie, left this  
week for Prince Albert and Fort La-  
corne.

Inspector Wadsworth went to Snake  
Plains, on Wednesday, and will be ab-  
sent about two weeks.

Oats being scarce, the tie contractors  
are now feeding wheat to their stock.

Capt. Dongal has accepted the com-  
mand of the steamer Graham, on the  
Peace River. It is not yet known when  
he will start.

On Sunday last the youngest son of  
Louis Parenteau died of consumption.  
Two others of this family are on the  
verge of death.

Another Indian died suddenly on  
Saturday last, at One Arrow's reserve.  
He passed through here on Friday,  
apparently in good health, and on reach-  
ing home took sick and died, the next  
morning.

No mail left here this week for Prince  
Albert.

BATOCHÉ.

Dr. Willoughby, who has been attend-  
ing to the lumbermen, left last Thursday  
by the stage to go to Regina. It is not  
likely the doctor will return for some  
time.

Letters received by relatives of the  
Metis, who fled across the boundary after  
the rebellion, say that about twenty  
families of them will come back here  
next summer.

Mr. Bucher and Father Leocq, of St.  
Louis de Langevin, who took Mr. La-  
corne down to the St. Boniface hospital,  
returned here last Tuesday after a very  
rough trip. They took eleven days to  
go to Qu'Appelle and twelve to return.  
With the great care Mr. Lacon received  
he stood the trip fairly well, considering  
his state of health; paralysis rendering  
him hardly able to move. He is not ex-  
pected to ever recover the use of his  
limbs.

Mr. Duioise, one of Mr. Batoche's  
traders, was here on Monday and reports  
for very scarce.

Those who sold hay to the contractors  
this winter are now looking very anxiously  
for an early spring and a few of them  
already think they sold a little too much.  
One farmer gave his hay for \$5 a load  
and has now to buy it himself at \$8, be-  
gins to believe it does not pay to rely  
too much on Providence.

# GENERAL NEWS.

OTTAWA, Feb. 15.—The *modus vivendi* arrangement expired on Friday. There will be no alternative than to revert to the treaty of 1818, but it can safely be predicted that American fishermen will be given a license again next season. The Government will accept this with bad grace. It is well known that Secretary Blaine has played a waiting game intending to enter into negotiations for a new treaty.

QUEBEC, Feb. 16.—Several ministers interviewed on the subject of the last troubles in Hull said the Government had taken measures to repress further trouble and that the inquiry would be pushed most rigorously. The Cabinet ministers had private sittings yesterday on the late riots, and it was decided to take immediate action in the direction of the vindication of the law and protection of free speech of Miss Wright and other Evangelists. Orders were issued to have a Provincial force in readiness to proceed to Hull at once. Three Provincial detectives in plain clothes were dispatched to Hull and several important arrests may be looked for on Monday. The leaders of the riots are said to be foremen in the lumber mills. Yesterday the following telegram was sent to Miss Wright by Premier Mercier: "Your letter received. The Government is attending to the matter." In the Roman Catholic churches of Ottawa and Hull today a pastoral was read from the Archbishop forbidding the people to participate in or encourage attacks on Evangelical workers.

BERKELEY, Iowa, Feb. 16.—Mrs. Wm. STANDING ROCK, N.D., Feb. 16.—Big-horn, a leading Sioux City Indian chief, attempted suicide near here yesterday. He was found hanging from a tree with a noose around his neck. After restoration he had been applied he regained consciousness. He said the recent loss of his grand children made him feel bad and he wanted to join them in the happy hunting grounds. He has been placed in charge of officers until his troubles are forgotten. This is an unparalleled case. No Sioux Indian was ever before known to attempt to take his life.

FREDERICTON, N.B., Feb. 16.—Col. Robinson, late of Her Majesty's 44th regiment, died here on Saturday. He was a native of this country and at the age of 22 years received a commission in the British army and served with distinction in the Crimea and Indian mutiny. NEW YORK, Feb. 16.—The Sun this morning prints a five column article on the Rev. T. Dewitt Talmage, entitled "Is Talmage a humbug?" MONTREAL, Feb. 16.—Referring to the Orange bill L'Estandard says that its adoption will mean a certain and early civil war, for if the Orangemen attempt a street parade here next 12th of July a bloody riot is sure to follow. "However largely," it adds, "the patience and forbearance of Catholics, both French-Canadian and Irish, may be depended upon the provocation will be too great; nothing can prevent bloodshed." The paper

adds that there will be a conflict of authority, as the Provincial law already forbids Orangemen holding a demonstration outside their lodges.

SPOKANE FALLS, Wash., Feb. 16.—D. A. Stewart, chief engineer, and six other Canadian Pacific engineers, were here to-night, having come down from Colville on their way to Vancouver B.C. They compose the locating party of the Canadian Pacific into the state, and have completed the survey from Revelstoke, B.C., to Colville, Wash. One of the engineers said that the work on the road would begin as soon as the weather would permit, with the expectation of completing it to Colville this season. It will be completed to Spokane Falls later on. The route is located through one of the richest mining districts in the world, and they will expedite the completion of the road as rapidly as possible. The Great Northern is reaching out for the business of that section and has a line already surveyed through a portion of that district to Spokane Falls from Great Falls, Mont. The Canadian Pacific is anxious to cut this road off, as well as to secure the traffic of the rich Kootenay mining district. The advent of the Canadian Pacific will make this city the supply point of the Kootenay country, and will provide ample supplies of wet and dry ores for smelter. This city is now the greatest railway center of its size in the world, and the advent of the Great Northern and Canadian Pacific will give it nine roads, four of them being transcontinental lines.

### DESTITUTION IN NEBRASKA.

The following letter was received last mail by Mr. Way, and it more than speaks for itself.

LAMAR, NEB., Feb. 6th, 1890.

To the Postmaster, Prince Albert,  
SIR,—The drought has been quite severe for the past two seasons in South-west Nebraska, and a number of Canadians and Americans, having heard good reports of your country, in the British territory, north of Montana. I hereby accede to their request, by writing for some information respecting your country and not knowing any one there I address it to the Postmaster of Prince Albert, Sask., hoping you will answer or hand this letter to some land agent there, or some one interested in encouraging immigration. I am from near Belleville, Ont., myself. My brother is here and gives a good account of what he has heard of your country. We would like a few facts about the time of seedling in the spring; kind of crops, and yield; climate, especially in winter; chinook winds, if any; price of improved lands, government lands, also unimproved lands; railroads, streams, timber, if any; and all other necessary information; whether stock, had better be driven from here out there, or sold here and other stock bought there, as horses and cattle are a very good price here. If you have circulars describing the country, please mail me some immediately. We would like to know how stock winters there. Please direct to Winchester, Chase County, Nebraska, as I will be at Winchester when letter comes.

Yours respectfully,  
S. P. REYNOLDS.
